

# ALWAYS UNITED

United Way of the Coastal Empire applauds the tireless efforts of the 2020 Campaign Cabinet. Cabinet members are local business leaders who give their time to help increase community participation in the United Way campaign. Their leadership is critical to the success of our fundraising effort which results in an investment of millions of dollars into the well-being of our community. Because of these individuals, United Way will be able to support local programs and services that improve lives through Education, Financial Stability, and Health.
